CONCERNED COMMUNITY CITIZENS PETITION

The City Of Temecula has the responsibility to enforce all City Codes and Ordinances for the safety and welfare of its citizens. The city must ensure that no city codes or ordinances are violated. This is to ensure that noise levels, traffic congestion, parking problems and other issues do not affect the tranquility of the residential area in which this facility exist. Additionally, we have grave concerns about how this project will negatively impact the many natural species that inhabit this area.

There is a facility being planned for the 31200 block on Nicolas Road in Temecula. The facility is a 25,000 square foot Mosque and Islamic Center situated on 4.3 acres and will accommodate up to 1,311 people.

We, the undersigned citizens, are very concerned that this proposed facility poses numerous problems, including issues regarding: 1) life and safety; 2) noise pollution; 3) traffic congestion; 4) parking issues; 5) endangerment of species; and 6) quality of life. We strongly urge the City of Temecula deny the Continued Use Permit or any other development that would negativity affect our residential areas.
